THIS CORN SHELLER weighs only three pounds, is made of cast iron, has a retary movement, and is the first invention in this line that shells "without friction on the cob," and is, therefore, the easiest operating Hand Corn Sheller in existence. It cannot get out of order by use, will last for years, shells all sizes of corn cars, can be used by any one at first sight. It can be fastened to a bench, chair or table, or for portable purposes screwed to a small board, which will answer for a seat when using the implement. In shelling, the operator grasps the butt of the car of corn with the left hand, presents the small end to the shelling teeth and rotates the sheller with the right hand; the acute angular teeth penetrating between the rows of corn close to the cob, shelling very easily and rapidly; when the car can no longer be held, the projecting cob is taken held of by the right hand, and the sheller rotated with the left. As this sheller is patented on a new principle, we invite inspection. But seldom has such an opportunity been offered to energetic business men. We are fast disposing of County Rights to such men, and no others. This little Sheller supplies a want universally felt, as is proven by its rapid sale. The price—2.50-puts it in reach of all, white and black. Agents sell from 15 to 30 per day; as many as 6, 12 or more on one farm. It will shell from 5 to 6 bushels per hour.

We have also the HARRISBURG POCKET SHELLER. Price 60 cents. Will shell 2 to 3 bushels per hour. Parties wishing County Rights or further information will address us at Greenwood, 8. C.

For the cure of Dyspepsia, Ague and Fever,
Billious Diseases, General Debilty,
and all Impurities of the Blood.

THESE BITTERS have now firmly established themselves in the Isvor of the
public and the medical profession. Prepared
from purely vegetable ingredients of acknowledged efficacy, their unrivaled and highly
tonic, stimulating and prophrylactic qualities
peculiarly adapt them to all cases of General
Debility, Nervous Prostration of the System, &c.

As an excitant of the appetite and a wholesome aid to t. process of digestion, they
will be found to be very efficacious, while
their peculiar medical properties render thom
of unequaled value to those subject to Chilla
and Fever, Congestion, and other missmatic
diseases.

These Bitters will be found most mead-

or inequised value to those subject to Chills and Fever, Congestion, and other miasmatic diseases.

These Bitters will be found most wonderfally beneficial in all cases of Debility and Irregularities of Females. Wheresever introduced, they become a standard article—a medicinal staple. Unlike the many noxious atimulants advertised, they brace and fortify the system without exciting undue corobral action. They are without doubt the best tonic and constitutional renovator ever offered to the public. MOTTE & TARRANT,
